SUMMARY

Passionate science and technology enthusiast. Eager to learn and develop advanced technologies, build networks and co-create knowledge. Special interest in developing technology for human wellbeing and sustainable development using the multidisciplinary approach.

EDUCATION

Name of Course	Year	Institute	%/CGPA
BTECH C.S.E (Hons. Data Science)	Present	Vidyashilp University	8.93
ISC (Class XII)	2022	Vidyashilp Academy	86 %
ICSE (Class X)	2020	Vidyashilp Academy	96 %

INTERNSHIPS

AI/ML Intern - Product Development, Evueme

Jan 2026 to Present

Working on multiple projects. One, as a continuation to the previous project. Along the same lines, working on automated analysis of communication skills of a candidate. Working on integrating these multiple products into one complete pipeline.

AI Intern, Evueme

Jan 2024 to Jul 2024

Lead a team working with Evueme, Delhi to design an AI (employed a multimodal approaches that use Computer vision and Machine Learning) that detects fraudulent practices during live online interviews.

PROJECTS

Deepfake Detection Project, Vidyashilp University

Jan 2025 to Mar 2025

Achieved 97% accuracy in deepfake image detection using a CNN-based classifier, trained on a balanced 4 lakh-image subset from a 16 lakh-image dataset, without reliance on external APIs.

POSITIONS OF RESPONSIBILITY

Core student member, Placement and Preparation Committee

Aug 2024 to Present

Collaborate with faculty and peers to organise and streamline placement preparation strategies and supporting student career readiness initiatives.

Core student member, Centre For Writing

Aug 2023 to Present

Part of the Vidyashilp University Centre for Writing - organising, leading and hosting events and workshops around the topics of writing and leadership skills - especially, role of AI in writing.

ACHIEVEMENTS

Second Runner-Up, GenAI Exchange Hackathon, Google + Hack2Skill

2025

Developed an AI-driven solution to simplify complex legal documents, enabling users to easily understand critical clauses and make informed decisions. Utilised Google Cloud's cutting-edge cloud and generative AI technology to create an intuitive user-friendly platform that bridges the information gap in legal agreements. Demonstrated strong problem-solving, innovation, and technical expertise in tackling real-world challenges.

First place, Bengaluru Mobility Challenge, Indian Institute of Science

2024

Represented Vidyashilp University in a challenge organized by Bengaluru Traffic Police, the Centre for Data for Public Good, IISc, and hosted by IEEE DataPort. Tasked with vehicle re-identification across 23 Safe City camera locations using object detection (YOLOv10x) and tracking models (e.g., BotSort). Contributed to vehicle classification and multi-camera re-identification.

EXTRA-CURRICULAR ACTIVITIES

Community Service, Jalaposhan Trust

Actively involved in community service, contributing to lake rejuvenation projects (for the Jakkur lake in Bengaluru) including fundraising and awareness activities - with the NGO Jala Poshan. Now, working on designing a game revolving around biodiversity awareness. For this, learning game theory basics from online courses.

OTHER EXPERIENCES

Multi AI Agent Systems with crewAI, DeepLearning.ai and CrewAI

Feb 2025

Thorough understanding of designing, prompting, and coordinating multiple AI agents to work together via natural language. Gained hands-on experience in automating workflows like customer outreach, content research, financial analysis, and event planning using multi-agent systems.

IEEE and AES Drone Building Workshop, Nitte Meenakshi Institute of Tech.

Nov 2024

Engaged in a workshop held by IEEE that dealt with the basics of building a drone. Part of the team in Vidyashilp University that implemented the learnings and built an in-house drone from scratch.

IEEE-VITM Young Innovators' Workshop, VITM

Jan 2012

Introduced to robotics and computer science at an early age; applied design thinking principles to real-world challenges.

AI for Everyone: Master the Basics - Certificated Course, IBM

Aug 2020
